**TRAINING**

## ELECTRONIC BRAILLE

“I have all of my seforim  
for yeshiva in my  
Braille display!”

Blind children use the CSB CARE  
Torah Braille system for all of their  
school materials.

Blind adults use it to learn with  
their children, with their chavrusos  
and at shiurim.

## TORAH VIEW SOFTWARE

**Bringing the full  
wealth of Torah  
to anyone with a  
visual impairment.**

**CSB CARE** combines the latest technologies with its own software innovations to create previously unimaginable learning solutions for clients with low vision.

**BRaille/PRINT**

“How can I learn  
with my son if  
I don’t know  
Braille?”

CSB CARE invented a system  
for combining Hebrew Braille  
with print to answer this father’s  
request. This has completely  
changed the way blind children  
can learn and be taught by their  
parents and teachers.

## EMBOSSSED BRAILLE

# “I DREAM in Braille”

We once asked one of our blind clients if she wanted a Tehillim in audio or in Braille. She responded “You don’t get it. I DREAM in Braille!”

CSB clients can receive any sefer in any Braille format. CSB’s innovations in Braille production are world renowned and make DREAMS come true!

## BRaille MAGAZINES

“Did you read this week’s Mishpacha Junior? It’s a really good one.”

Yes, blind people can now read the Jewish weekly magazines like everyone else and be in the know at the Shabbos table! Thanks to the generosity of the publishers who share their files, CSB CARE prints in Braille, binds and mails over 4000 volumes each year.

## EYE TRACKING FOR ALS

# והאר עינינו בתורתך

People with ALS can learn Torah and spread Torah, all through computer eye tracking systems. CSB CARE is a recognized leader in this technology, providing custom software, training and continuous support.

On January 1, 2020 at the Siyum Hashas in Metlife Stadium, one siyum stood out. Mendy Rosenberg completed shas using an eye tracking system and seforim provided by CSB CARE!

Rabbi Yitzi Horowitz learns and publishes a weekly Dvar Torah with his eyes. He gives inspiration and encouragement to thousands of people on how to find spirituality, happiness and light in their lives.

CSB CARE's first eye tracking software was created in 2009 to enable a youngster to communicate with his family in Yiddish...

...He continues to uphold the world with his learning and hasmada.

ר' נחום,  
אומגלויבליך, דו האסט נישט געזעהן ווי  
שבת אינדערפרי איז שלום'קע נאך  
געווען פארשלאפן מיטן דייפער און צאמי,  
און ווען ער האט מיר געזעהן האט ער  
ארויסגענימן זיין צאמי און געקישט מיין  
האנט אפאר מינוט נאכאמאל אריין צאמי  
און נאכאמאל ארויס און געזאגט ניין  
טאטי, קיינמאל האט ער נאך נישט געטון  
דאס, ער האט פשוט באקומען א טאטע  
וואס רעדט, און איך האב באקומען א קינד.  
אברהם דוד בן שרה בלימא ווייס

## EYE TRACKING FOR KIDS

Sometimes,  
kids just need  
to be kids.

CSB CARE trains children as young as two years old who cannot move or speak to use eye tracking devices. They can then communicate at school and at home, turn on their favorite music, and play games. As they grow older, CSB CARE provides them with much of their educational materials through custom eye tracking software

## LEADING KLAL YISROEL THROUGH EYE TRACKING COMMUNICATION

ALS Didn't stop the  
Kalover Rebbe from  
saving French Jewry!

CSB CARE has been working with the Kalover Rebbe for the past seven years to keep his communication intact through multiple technologies. Using just his eyes and custom designed software developed by CSB CARE, he hosted a meeting of leading Rabbonim and Rebbes. This jumpstarted one of the most successful fundraising initiatives in the history of Klal Yisroel to save French Jews from assimilation when immigrating to Eretz Yisroel.

594 מגילה דף כא.

מה משפט ביום אף כאן ביום  
ולעריפת העגלה אמרי דבי רבי  
ינאי כפרה כתיב בה כקדשים  
ולטהרת מצורע דכתיב (ויקרא  
י"ד) זאת תהיה תורת המצרע ביום  
טהרתו כל הלילה כשר

---

משפט ציום – דכתיב והיה ציום  
הנחילו את בניו (דברים כא) אורעה  
כל הפרקה כולה להיות דין, במסכת  
סנהדרין בפרק אחד דיני ממונות  
(לד, ז). לטהרת מצורע – בצפריס  
ועץ ארז ואזוב וסני תולעת.

# LARGE PRINT SEFORIM

# “One size fits One”

CSB CARE distributes thousands of large print seforim yearly to people with visual or reading impairments. These include people with macular degeneration, diabetes, cataracts, glaucoma, stroke patients, cortical vision and dyslexia. CSB CARE has a streamlined testing process to quickly identify the required size, contrast, color and format for most clients. Weekly magazines are also available in large print!

Braille Siddur (3 Volumes)	\$180
Large Print Tehillim (3 Volumes)	\$100

## ZMANIM HOTLINE

# 718-331-TIME

A blind Yid called CSB CARE 17 years ago with a question. "I need to daven Vasikin to catch my train to work every morning. How can I get the Zmanim?" CSB solved the problem by creating a Zmanim phone hotline. Good news travels fast; the hotline receives over 2 million calls annually!
