Let us ensure that there is not one moment
that goes by without Torah being studied.

The Gemara in Shabbos teaches us that plagues shall come on Klal Yisroel because of the aveirah of bitul Torah – neglecting Torah study; this is based upon the passuk: אם לא בריתי יומם ולילה חקות שמים וארץ לא שמתיו.

The world stands on Torah and the antidote to combat the tzaros is through the strength of לימוד התורה.

Reb Chaim Volozhiner famously stated in Nefesh HaChaim that it is imperative that a

Jew somewhere in the world will always be engaged in Torah study.

If there would be a void of Torah study even for a split second, the world as we know it would cease to exist.

The reason why there are different time zones is to ensure that even while it's night in one part of the world, it is day somewhere else and people are awake learning Torah. Torah study needs to be a constant; it is a lifesaver and a must in our lives.
