The AIM Event

Just Right Moments captures the warmth, balance, and steady support that every new mother deserves during the beautiful yet demanding transition after childbirth. These are the moments that help a home feel calm, cared for, and connected - the moments that honor the role of the אִם הַבַּיִת, the mother who stands at the heart of the home.

Supporting AIM means providing mothers with the right help at the right time, ensuring they experience the comfort and confidence that shape a family's earliest weeks. By partnering with us today, you uplift mothers, strengthen homes, and build a more nurturing community for all.

Testimonials

When the community decides to wrap support around new mothers and motherhood, everyone benefits. Maternal health and postpartum care is not a women's issue - it's a family issue. And families are the identity of a community. When families are healthy, every part of the community is impacted. Baltimore is lucky to have AIM at the core of its maternal health support.

DVORA (HABER) ENTIN, LCSW, PMH-C

I started going to the weekly AIM Lactation Support Group to check my baby's weight, and it became something I looked forward to each week. The conversations I had there were always so supportive, so positive and so empowering. It gave me an energy boost to show up for my baby and family. AIM's tagline "Nurturing mothers, nurturing families," is truly spot on. Thank you AIM for being my family in town!

SHIRA GREENFIELD

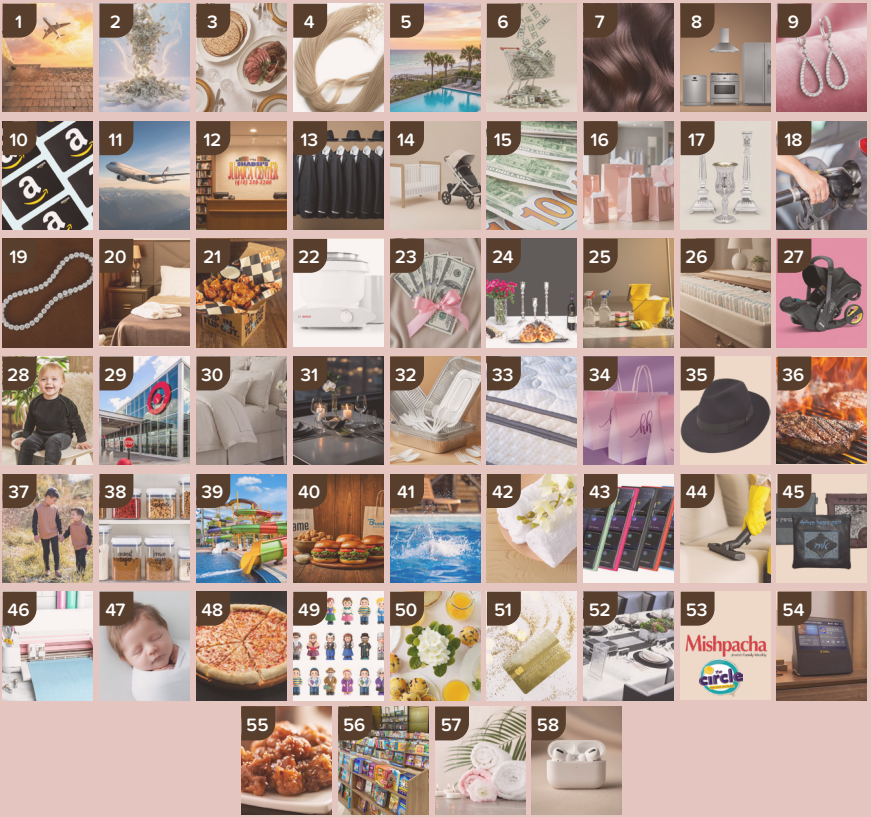

AIM is truly a gem in the crown of the Baltimore community. As the mother of a newborn, and a healthcare provider to hundreds of new mothers, I truly think the positive impacts are invaluable. The benefits to new moms including meals, cleaning help, care package and general support cannot be understated. Thank you for all you do!

GRAZIA ATKIN, NP, VILLAGE OB/GYN ASSOCIATES

I am continuously wowed by the support and love AIM gives to the new moms in our community. Their help sends a message to each new mother that she is doing something incredible and has a community behind her cheering her on. This is preventative care at its best; a more confident and cared-for mother is the key piece of a happy transition for the whole family.

MEIRZA NAZARIAN, LCSW-C, PMH-C
