OUR STUDENTS SAY IT

Although I struggled as a student, I was deeply appreciated for and was taught to value the many other strengths I have. The faculty instilled within me a deep love of Torah and chessed and the means with which to have a meaningful relationship with Hashem. Through production, chagigos and other activities, I found my other talents and developed confidence and leadership skills.

-M.L.

I feel so fortunate to have been given the resources to be able to develop into the person I have the potential to be.

-A.B.

AND ALUMNAE T BEST

I love so many things about our school: the teachers who inspire us and answer our questions, the girls who come from so many different backgrounds so everyone can find a friend, and the general feeling that everyone is part of the same family.

-M.C.

Class has become something I look forward to. My teachers are enthusiastic about their subjects and their exuberance encourages the class to thrive. I feel like I am becoming a well-rounded person as all subjects are thoroughly explained and connections are frequently made to everyday life.

-A.M.

High school has had the greatest impact on me. It is here that I have really felt a strong connection to tefilah. My teachers and guest speakers really helped me focus on the power of tefilah, the beauty of the words and how I can connect to Hashem through them.
