WITH APP TO OUR EXCEPTIONAL

Thank you so much for the extra time and attention you continue to give S. Not only is she building important Chumash skills and making such great strides academically, but her confidence has skyrocketed and she is really growing into herself. We are seeing the positive effects of her stronger self image in so many areas of her life...

R. and C.

The games from class helped me know the Navi so well. I barely had to study for the test. I think I got the extra credit. My sister only helped me a little bit. Thank you!

C.S.

RECIATION ONAL TEACHERS

I have been meaning to write for a while. Often I find myself trying to channel your style, perspective and global view of history as I teach my own history class. Your lessons were so clear and seemed so effortless and gave me a beautiful appreciation for history and its importance for our present and future. Thank you for giving me the background, knowledge and tools to love what I do and hopefully impart some of the wisdom I gained in your class to my students.

B.

Thank you for doing homework with me at recess when my Totty wasn't feeling well. My Mommy said it was a big help. It made me feel special.
